

PIYUMI WASANA

BICT UNDERGRADUATE STUDENT

Welimada, Sri Lanka | +94 71 541 5862 | piyumiwasana926@gmail.com | [LinkedIn](#) | [GitHub](#) | [My Portfolio](#)

SUMMARY

BICT (Hons) undergraduate at the University of Colombo with foundational knowledge in computer networking, IPv4 subnetting, and Linux fundamentals. Hands-on experience designing network topologies using Cisco Packet Tracer and diagnosing connectivity issues. Seeking an IT / Network Intern role to support network administration and technical operations.

EDUCATION

- University of Colombo**

Bachelor of Information and Communication Technology (Hons) - Faculty of Technology
Expected Graduation: 2028 | Current GPA: 3.14 / 4.0

Aug 2024 - Present

LICENSES & CERTIFICATIONS

- Introduction to Networking and Storage - IBM (via Coursera) (Sep 2026)
- Networking Basics - Cisco Networking Academy (via Credly) (Sep 2026)
- Getting Started with Linux Fundamentals (RH104) - Red Hat Academy (via Credly) (Mar 2026)
- AWS Academy Cloud Foundations - Amazon Web Services (via Credly) (Mar 2026)

TECHNICAL SKILLS

- Core Networking:** IP Addresses (IPv4), Subnetting, LAN / WAN Fundamentals
- Protocols & Web:** HTTP / HTTPS, DNS, DHCP
- Troubleshooting:** Basic Network Troubleshooting (Ping, Traceroute)
- Tools & Systems:** Cisco Packet Tracer (Topology Design & Simulation), Linux Fundamentals, Git/GitHub

RELEVANT PROJECTS

- Enterprise Perimeter Defense & Access Control | Network Security Simulation** | [LINK](#) (Sep 2026)

Designed a secure perimeter network connecting an internal LAN to an external web server using Cisco Packet Tracer. Configured PAT (NAT Overload) for private host outbound translation, deployed an Extended ACL to restrict unauthorized guest traffic, hardened access switches with Port Security (sticky MAC bindings), and secured remote administration via SSHv2.

Technologies: Cisco Packet Tracer, NAT/PAT, Extended ACLs, Switch Port Security, SSHv2, Static Routing

- Enterprise Multi-Branch Network Design & Routing | Network Simulation** | [LINK](#) (Aug 2026)

Simulated a distributed multi-branch enterprise network connecting Branch Office, Headquarters, and Web Server segments. Planned an efficient IP scheme using VLSM, configured dynamic routing via RIPv2, segmented departmental traffic using VLANs with 802.1Q Inter-VLAN routing, and set up infrastructure services including centralized DHCP, DNS, and WLAN.

Technologies: Cisco Packet Tracer, VLSM, RIPv2, VLANs, Inter-VLAN Routing (802.1Q), DHCP, DNS, WLAN

CORE COMPETENCIES

- Problem Solving & Troubleshooting
- Analytical & Critical Thinking
- Attention to Detail
- Clear Communication
- Team Collaboration & Leadership Attention to Detail
- Time Management

EXTRACURRICULAR ACTIVITIES

Sports

- Member of Volleyball Team, Faculty of Technology, University of Colombo

Club Memberships

- Techno Sports
- LEO Club
- INTSEC
- Arts Club (Dancing Circle)

Volunteering

- Volunteer - Yuthukama 5.0 (Zero Plastic Club, UoP)

LANGUAGES

- Sinhala
- English
